"Winter holiday time is such a wonderful and magical time of the year. We dream of lovely white snow, Christmas sparkle, spending time with family and friends, and cheerful holiday music. Winter season is observed by people in different parts of the world".

For this week the 3 year olds had an exciting time making arts and crafts for the Winter Concert. Sparkling and shiny blue, gold and silver glitters have been left everywhere. Hanging decorations on the Christmas tree is really fun for them.

The fabulous songs and dance numbers that the 3 year olds presented is more than enough to feel that winter is here! Needless to say, each child spent precious time practicing to give their parents a huge surprise during the concert. Every minute that they spent practicing is worth it!

We are truly proud of the 3 year olds. The extra ordinary effort and energy that comes naturally from each child is unbelievable and unbeatable!

Have a great weekend to all.
