Kids Say the Funniest Things...

"On my 4th Birthday, I will be turning 4 years old." - Ashleigh

During the Earthquake Drill, Ms. Sarita explained to cover your head with your hands and hide under to table. **Matthew** put his hood on his head and stayed in his seat, "It is a good thing I have my shirt with my hood on today to protect my head from the earthquake."

"We have to go outside when the fire alarm goes off and I never see a fire or a fireman." - Daiki

Birthday lunches...

2 Year Old Pandas

Two year old PANDAS! We're focusing on WINTER - snow, ornaments, etc. and our winter concert songs these last two weeks before the holidays. Instead of sending our beautiful decorations home, we count on your patience, and decorated the multipurpose room for our 2 YO concert next Friday (DON'T MISS IT! Please try not to peek in if you don't normally pick up your child there after school because the result is simply STUNNING!! You'll love it! (Please allow us to feel a little proud ;-))

3 Year Old Rabbits

Can you believe that we are nearly half way through the school year and the holidays are knocking at the door? We have had four wonderful months together with your little ones and plenty of fun months left ahead of us...The holiday season is quickly approaching and at school, the children are busy practicing for the Winter Concert and let me say they are doing great- they have worked so hard to learn the songs! At school the children will be designing props for the concert and ornaments too. We will use these decorations to decorate the classrooms, hallways and the Gym to try to create the environment of winter.

4 Year Old Tigers

WORKING TOGETHER is the theme that the Four Year Olds are discussing in class. With this topic, they are learning how important it is to work together in all kinds of groups; like family, classroom, friends and community. They also have learned the different ways they can help at school and home. Now, they are aware that when they work together, the job gets easily done.

“Many hands make light work.” John Heywood
