

Rabbits Class News

November 25, 2010

Dear Parents,

It's amazing how quickly time is flying by. The children are doing so many amazing things each day! We hope you are all seeing the progress your child has made, even at home. What happens in school is only worthwhile if you are able to see it too! Giving your child words of praise could encourage them to work to their best ability in school and at home.

It is our pleasure and joy to share with you your child's accomplishment for this week.

The 3 year olds had a wonderful time learning the new alphabet letter, which is the letter **G**. "Grasshopper in the garden, guh, guh, guh" and this is how we write it, around, up, across". What a fun way of learning and writing letter G. Also, the 3 YO's were able to learn new vocabulary words that go with the G sound; **grasshopper, garden, grapes, and more!**

In addition, the children are doing well in rote counting. For this week, we focused on the number 6. Different activities, such as arts and crafts, painting, cutting, lacing, pasting, counting objects, tracing numbers and more, were introduced and given to the children so that way they will be more focused and inspired to learn the numbers.

Reminders:

1. Please return library book/s if you still have it at home.
2. Kindly check your child's message notebook everyday.
3. Special reminder for Winter Concert preparation:
 - Have your child wear **BLUE JEANS** and **RED TOPS** for Winter Concert.
 - No alphabet letters or numbers will be introduced in the coming weeks due to the preparation of the upcoming concert. Please take note that your child will still be doing review activities while preparing for the Winter Concert.

More information about Winter Concert coming soon!!

Thank you so much for your usual cooperation and support.

Have a great weekend everyone!
